

RELIGION AND THE SYMBOLISM OF OUR SOLAR SYSTEM

THE 5 STARS OF OUR METROPOLITAN STAR SYSTEM

SOL - THE ONLY ACTIVE STAR

..and 4 Dormant stars (not recognised by stars, instead, commonly referred to as Gas Giants of Jovian planets)

JUPITER
NEPTUNE
URANUS
SATURN

But look at what happens if you take the first letter of each of these 'stars' [except one, where we take the last letter (or the second letter) instead of the first one - so as to make the hidden symbolism less obvious].

NEPTUNE (second letter instead - or LAST letter: NeptunE)

J UPITER	J
N EPTUNE	E
S OL	S
U RANUS	U
S ATURN	S

Compare this with the 'Crypt Text' in the Da' Vinci Code, in which Robert Langdon has to change the letters of a device to decipher the word 'APPLE'.

This notion of 'changing key letters' is the mechanism used to hide 'messages' and hence, make it seem less obvious.

Thus, consider also, who Jesus' main disciple or follower (or ORBITER - hence, favoured orbiter or his 'biggest fan' [and biggest orbiter/planet]) was.

Specifically, the JEW PETER, or rather, the JU PITER....

...who, incidentally, went on to found what we know today as the Catholic Church, and thus, conveniently, you will find a whole host of symbolism in the Vatican and in Catholicism in general (and indeed, almost certainly even more so in the Jewish faith and virtually ALL Major Modern day religions), that correlate with the 'Star system Jupiter and its senior entity, namely, Saturn.

And if you look at the images in the accompanying - particularly, those which pertain to the Vatican, then you will see a whole host of symbolism pertaining to activities taking place (and motivations thereof) in the heavens above us all; in particular, with references to the planets Jupiter and Saturn, which essentially seem to play a key role in the alignment of pretty much all major religions.

[See Vatican symbolism images and all related symbolic imagery - in particular, from New York and London]

So, we see yet more hidden symbolism - and there is plenty plenty more.

Indeed, with a little further inspection of these images, you will see that this sort of symbolism extends far further than just the Vatican and moreover, far further than the realms of religion; it pervades virtually every aspect of society and can thus be seen quite literally ALL AROUND US; particularly in the arts.

We shall cover much more of this notion (and many more hidden truths) in our discussions as we delve further into this text.

Let us further consider, for example, the fact that two of those stars do not actually belong in our solar system at all; they are actually alien invaders, and many many star systems in our galaxy have similar 'stars' within them, whose aim is to draw close to each of the original stars in turn, destroy all of their terrestrial planets (essentially, blowing them up from the inside out, having drilled down to the core over thousands of years and then, urbanised it through slave labour (people stolen in amongst various 'natural' and man-made upheavals such as famine and conflict), transporting people and resources down to this newly constructed 'Death Star', destroyer of worlds/planets) leaving behind just a 'new moon' which essentially, the remnant core of the planets.

The debris then floats into space to create what we know as the asteroid belt around these stars, which looks like a ring system from a distance; this is the reason why Uranus and Neptune also have ring systems around them, just like we do at the true edge of our sub-solar system (just beyond mars).

If we were looking back towards our 'sub-solar system' from either of these star systems (and more generally, from anywhere beyond the bounds our sub solar system) then you would clearly see a ring system around our star also - essentially defining the bounds of our sub-solar system.

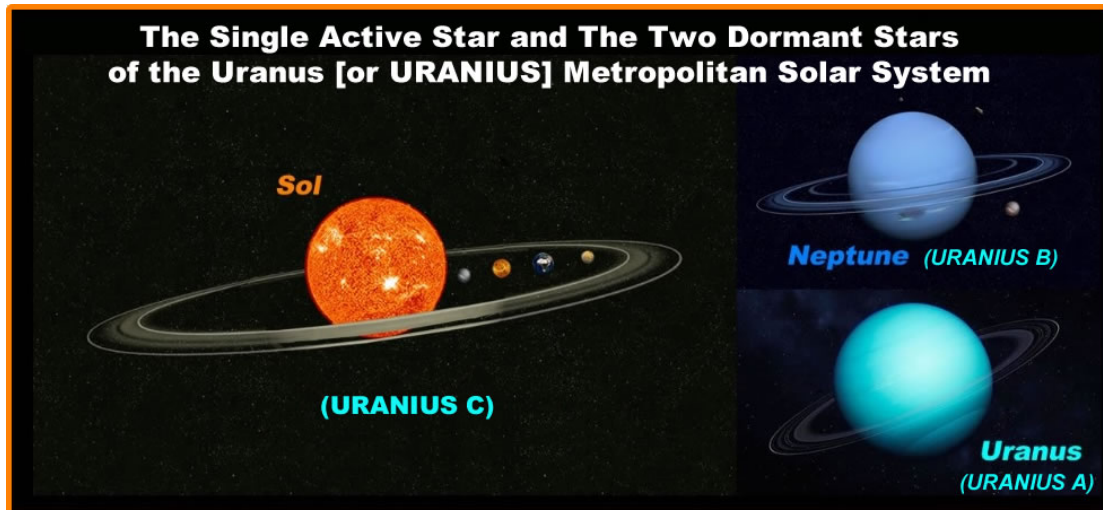

Figure 1. The Stars of the Uranus/Uranus/Urania Metropolitan Solar System

[A matter of preference as to which name one might prefer to use, and compared with the Sirius Star System, one could simply choose to use Uranus A, B, & C]

Because Uranus and Neptune have already experienced the Near-Jupiter/HOT JUPTITER approach, having had all of their planets destroyed. And that means that with these star systems already destroyed, our planet is the Christ Planet within the Christ Star system (the last remaining star system); the Christ Star that is our Sun.

The stars and the planets (and the galaxy, galaxy clusters, the universe, etc.) are all living entities; all part of the hierarchy of celestial entities [The Celestial Hierarchy] leading all the way up the Almighty Creator at the very very top of ALL celestial hierarchies and all branches thereof. Thus, our Celestial Hierarchy extends downwards from the Almighty Creator right the way down to us at a human level (and indeed, even lower still beyond our current scientific comprehension), and the phrase 'Greater Powers' is used as the collective term for all of these entities above the human level of existence (The Almighty Creator and all entities within the Celestial Hierarchy), which also includes the living, breathing ecosystems all around us (and of which we are [or at least, once were] an integral part).

These stars and planets often correlate with the Gods, Devils, Angels and Demons that we find in the various different religious, biblical/spiritual texts around the globe.

Jupiter and Saturn are actually both hostile planets [or rather, hostile dormant stars / star systems], and we can easily find many many other Juptiter-like 'planets' (especially 'destructive-phase' Hot-Jupiters) across our galaxy; hostile stars in the process of actively destroying the original resident stars of those star systems, as was the case with the star systems Uranus and Neptune.

[This can clearly be seen as arguably the main connotation for the 'Vatican Globes' sculpture featured in the images; just one of the many installations of this 'Arnaldo Pomodoro' 'Sphere within a Sphere' Globe' sculpture which can be found as far afield as Israel, the United States, Italy (the Vatican), the Republic of Ireland and Japan].

(a)

(b)

Figure 2. Sphere within a Sphere 'Globe sculpture' by 'Arnaldo Pomodoro

Different view points of the aforementioned 'Pomodoro Globe' sculpture at different locations around the world.

Indeed, consider the following;

SATURN -> SATAN, and further,

JUPITER -> JUPICER -> JUCIPER -> JUCIPHER -> LUCIPHER -> LUCIFER

So, we see yet more symbolism that relates to a Great Battle that is taking place in the heavens above; quite literally, warring stars; Stars at war; Warring Stars embroiled in a War; quite literally, STAR WARS.

[Aside]

Although the Red Dragon of Revelations:12 could refer to Uranus - because of the '7' heads and the Christed '10' horns, it could also refer to Saturn and/or Jupiter; Saturn - because she stood between a female Metropolitan solar system and the galaxy before our Metropolitan solar system gave birth to a SUN (our sun/star system as the child); Jupiter because it stood consecutively between the stars Uranus and Neptune prior to destroying them and their babies/terrestrial planets; and Jupiter/Saturn, with Saturn as the tail of Jupiter that swept the 3 [-rd] of stars from heaven [galaxy] to their current lowered, dislocated location [the ground/earth]. Thus, just by changing the focus and the order of the biblical texts, a whole variety of different connotations can be gleaned from the very same text - so long as one 'knows' how and when to switch focus and order. Thus, this could also include Neptune, our Sun, Mars, Earth and even, Venus, the planets that created the likes of Mercury, Luna, and possibly also, various other large moons (such as those orbiting of Jupiter and Saturn - Fig 7) that may have been previously 'relocated elsewhere' [i.e. devoured/eaten/consumed].

[End Aside]

Thus, consider the Great Battle that is supposed to come about during the 'End of Days'.

We are told that this Great Battle will be called Armageddon, but look at what happens when you compare the letters in this word with the letters in the word/name 'Andromeda'.

ARMAGEDDON

ANDROMEDA G

Andromeda (The **ANDROMEDA** Galaxy) is the largest Galaxy of our Galactic Group - a group that I refer to as the Andromeda Galaxy Group (or the **ANDROMEDA** Group of galaxies).

So, we can see yet more hidden symbolism, and we discover that this battle is raging all around us - and has been for **MILLIONS AND MILLIONS OF YEARS**.

...but we human beings are actually fighting on the wrong side - i.e. destroying the planets; and we have been deceived into doing this by design; that is to say that everything that we have been led to believe is progress and advancement is actually highly destructive to the planet, whilst anything that would be beneficial will always ultimately be presented with a cost-liability that will essentially ensure that it will **NEVER** be considered to be viable or cost-effective to progress towards; they are always 'effectively' 'costed' out of our reach; to ensure that we are reluctant to proceed in that direction and hence, that we will always choose to continue along the path of destruction that we have so meticulously and deliberately been placed.

i.e. they tell us that human are 'Born in Sin', but what does this really mean?

...well, now you know a small part of that notion. But there is actually a physiological aspect to that notion also.

We are told that apparently, Adam and Eve committed a sin and hence, they were cast out of Eden and cursed by God for that sin, and hence, we have all inherited that Sin.

But if you chose not to believe that fabled story, then what could it really mean to be 'Born in Sin'?

What is the 'Scientific' [or even, Natural / Nature-based] explanation for this terminology?

Well, to learn about our 'departure from Eden', you need to look at our DNA, because the truth of the matter is that the Human Being is a 'GENETICALLY MODIFIED' being.

We were not supposed to be formed of the current DNA chromosomes within our bodies, but 'someone' or 'something' actually took certain creatures, added in alien DNA chromosomes and extracted as much [as many] of the original DNA [chromosomes] as they could possibly get away with, hence, this is what now constitutes our DNA make-up.

Hence this 'Sin' that we are born with is related to the alien chromosomes within our current genome; our actual DNA make up.

Many other creatures have alien DNA within them, but most of those creatures did not have their original genetics removed from them (like human beings did), hence, these creatures will have far more chromosomes than the human being.

As an example, consider the genetics [i.e. the chromosome count or the number of pairs of chromosomes] of, say, the Lemurs of Madagascar (often 30s [or possibly, low 40s]); ALL except the subsequently genetically modified 'ring tailed lemur' which has 56 chromosomes.

What you will see is that they have a very different chromosome count (pairs of chromosomes) - and early human beings will have originally originated from Lemurs, before being genetically modified.

Just looking at the numbers, which one/s do you reckon is the most likely to have alien chromosomes within them?

Also, look at the Chromosome count of most of the Creatures in Australia - koalas (16), kangaroos (16) and Tasmanian Devils (14 pairs), and possibly even, wallabies (22).

And then, compare the Genetic makeup of, say, different types of Bear, with the likes of Polar Bear, a Black Bear and a Brown Bear now showing as having 37 pairs of chromosomes (which actually seems to have changed from what was showing just a year ago, with there previously having been a distinct difference between these three) and, say, the Giant Panda or the spectacled bear, which have 22 and 26 pairs of chromosomes respectively.

That is to say, we are talking about species that, on the surface, seem to look very similar and be of similar origin, but yet, we can see a very distinct genetic discrepancy; an increase of chromosomes that is actually approaching a two-fold increase.

So, again, which ones do you reckon has the alien chromosomes within it?

[It should be noted that as soon as I document any information that is widely available, much of it will subsequently disappear from the internet and from public record, and more often than not, will be replaced with completely different information that no longer supports the correlations that have already been observed; this is done so that whenever I give people 'facts' to look up, they will actually have trouble finding those facts, even though I will have believed that they would have no trouble at all at the time of telling them].

We human beings are quite literally the 'piece the resistance' of the insubordinate insurgent alien presence in our galaxy and solar system; we all have this alien genetic makeup within us, and moreover, 'they' ensured that we would all be led to destroy this final naturally 'living' planet; we do this BY DESIGN.

The plan is to destroy this planet just like they have destroyed ALL OF THE OTHER PLANETS and STARS within our star system (our multi-/tri- star metropolitan solar system).

Thus, this planet [Planet Earth] is suffering from a human cancer - i.e. an organism that multiplies and multiplies uncontrollably, destroys all the other cells that would normally keep the greater body [the Earth] healthy, and monopolises all of the nutrients that would normally sustain those good cells, causing those good cells to die out and cease to exist; replacing them with (and/or transforming them into) yet more cancerous human cells (and all of the various other highly destructive life forms and organisms that support the highly destructive human-sustaining way of life - the likes of cows and other types of pastoral creatures; indeed, GRASS itself, and ALL of the various forms of the billions [if not, trillions] of pastoral creatures across the face of this planet; ALL of HOSTILE ALIEN ORIGIN; like much of our own physiology; hence, all, to some extent, hosting the highly destructive, spiritually insubordinate alien presence here on this planet and in this solar system; in this galaxy and in this otherwise, nature-aligned and life-sustaining, divinely-aligned Celestial Hierarchy].

But we human beings know that to cure cancer, if we are not able to turn those bad cells into good cells, then we must remove all of those bad cells from the body (along with any that might potentially turn bad further down the line), and then hopefully, the bad cells will not return later.

So, clearly, we are the bad cell that needs to be transformed.....or else, removed by some means.

But before this would be done, a Christ was promised who would show the human beings what the truth was, and see whether they would be able to change; whether they would be willing to transform themselves into good cells;

more specifically, whether enough of them would be able to change and instead, start defending the planet in the PROPER WAY, as revealed through the Christ individual;

To cease their destructive ways and instead, transform themselves into 'A NEW BEING' that was spiritually-aligned with the planet, the star system and the divinely-aligned Celestial Hierarchy; to defend the planet and the Celestial Hierarchy in accordance with the LAW of the Almighty Creator (that LAW being NATURE);

Essentially, to see if this species would be able to prove itself worthy of being saved, as opposed to just being eradicated by Greater Powers; just like any other virulent, destructive, life-depleting cancer.

These are the truths that 'the powers that be' do they not want us lay-people to know, because they are part of the agenda to destroy the planet.

And thus, as things currently stand, it is HIGHLY LIKELY that the human being is simply not going to make it; i.e. that they will continue along their current and long-standing destructive path (aligned to money, wealth, control, deceit, manipulation and all of the other various destructive tools that are used by the insurgent alien force to keep human beings 'hooked' on their current beliefs, ideology and aspirations, and thus, their current destructive course and trajectory) and hence, will not be viewed as a species worthy of being saved by Greater Powers.

...and in the most extreme case scenario, we may only be months away from that total eradication of human beings from this planet [and likely, most other species also].

...and it should be noted that the word 'extreme' in this instance is only being used to serve as an indicator of 'severity' and hence, specifically NOT as an indicator of likelihood (given that from where I personally stand and what I personally see, it is this 'extreme' scenario actually seems to be more likely than not to await us in the not-too-distant future).

GETHSEMANE

[The Prelude to The Death/Crucifixion of Christ]

The Garden where Jesus is meant to have prayed before being crucified..
...but what's really the true symbolism behind this name and the story that is depicted in the bible??

Well, if we alter the order (and at times, certain letters) in the name, we get phrases such as:

SETH ENAME -> SETH ENEMY (ENEMY OF SETH - if we take SETH to be our sun).

SETH G ENEMY [G equating to number 7, hence our former senior Star, URANUS].

N.B. Seth is portrayed as an Evil God, and from the perspective of the insurgent forces, Seth would be the enemy and hence, portrayed as evil. Seth is a Sky God, and Uranus is also portrayed as a God of the Sky. From the name of our Sun, Helios, we get 'Hell' and the whole notion of Hell Fire and Fiery Hell; all a question of perspective.

EGTHS ENAME -> EARTH'S ENEMY.

EGHTS ENEMY -> EIGHT'S ENEMY [8 equating to our former deputy senior star, NEPTUNE]

GET ENEMY GH -> GET ENEMY 7+8 -> GET URANUS AND NEPTUNE

MENE EAGTHS -> MANY EARTHS [THE TARGET OF THE INSURGENT FORCES]

[See marbles being collected (fig. 4) from the ending of the "MEN IN BLACK I" movie; the one that pans out from their NY head quarters at the end. Even though they are shown as galaxies, in truth, these can also represent the cores of planets (initially depicted symbolically as the bright light inside the marble, as well as the position of the galaxy in the centre of the marble, symbolically representative of the fact that it is the Earth that maintains the connection of our Star system to the galaxy), and we see the alien 'knock the core out' of a bigger circle (representing the Earth) to then represent the moon (already beyond the bounds of the Earth) now being joined by the NEW MOON; namely, the Earth's core - after the rest of the planet has been destroyed; in Figs 3 & 4].

Figure 3 - A woman in Childbirth [just one possible connotation from Rev:12]

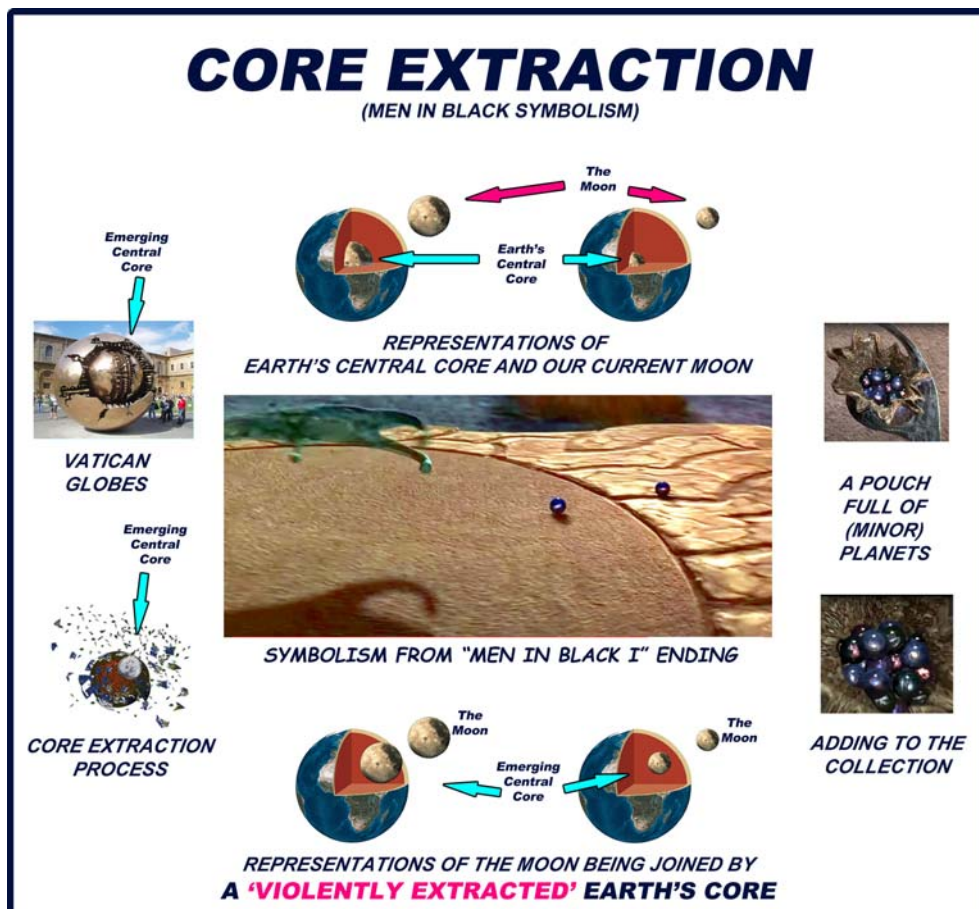

Figure 4

Also, we have MANGER, which we can equate to either MENAGERIE [HOUSEHOLDS] or French for EAT.

Thus, we either have SETH HOUSEHOLD/EARTH HOUSEHOLDS, or we have MANGER SETH/ MANGER EARTHS; eat SETH [compare with classical Cronus] or Eat/consume multiple Earths.

Cronus ate his three children, however, we note that those children are actually representative of our three stars, whilst Cronus is representative of Saturn. Hence, we get the notion of Saturn [and Jupiter] consuming all three stars of our Solar system....or at least, trying to. [See also, Rev 12]

[We can also mix these themes so as to derive phrases such as 'Get many Earths' or even, Get many enemy Earth's, and we might even take that a stage further, by observing that when 'they' destroy a planet (by blowing it up from the inside), they create a 'new moon'; a new 'core' which could then also potentially be described as an 'enemy earth' (though now from our perspective as opposed to theirs)].

We also have GET ENAME -> GATE ENEMY / ENEMY AT THE GATE.

...and we can add missing the HS [possibly, 8s/8's/ NEPTUNE'S GATE] or as 8 + 10, thus, 8= Neptune, and 10 => J/S/ X => Christ.

Uranus was the original Christ Star, then Neptune assumed that role, and when Neptune was destroyed [i.e, the Father and Mother both destroyed], then the child star [our Sun] became the new [and current] Christ Star.

The Earth is the Christ planet - Venus was likely a predecessor, and it is even possible that our moon and/or Mercury are the cores of former planets that were the Christ planet [senior planet] prior to the Earth assuming that role as the very last living planet.

Mars was actually sent to our star system from one of the other two (likely, Neptune, though not certifiably). [Biblical connotations: Rev:12 - Mars as the baby from Neptune as the mother]

Thus, this equates to the EAR being cut off a Christ Star [biblically depicted as a CENTURION [100/10/1/S/J/X], and then, being stuck back onto the Centurions Ear [noting that there was a new star assuming that role at that time, namely, our Sun].

If you consider the story in the bible, we see that Jesus [J-Jupiter] entered into the garden [the METROPOLITAN solar system of three stars], and was accompanied [not alone - with Saturn].

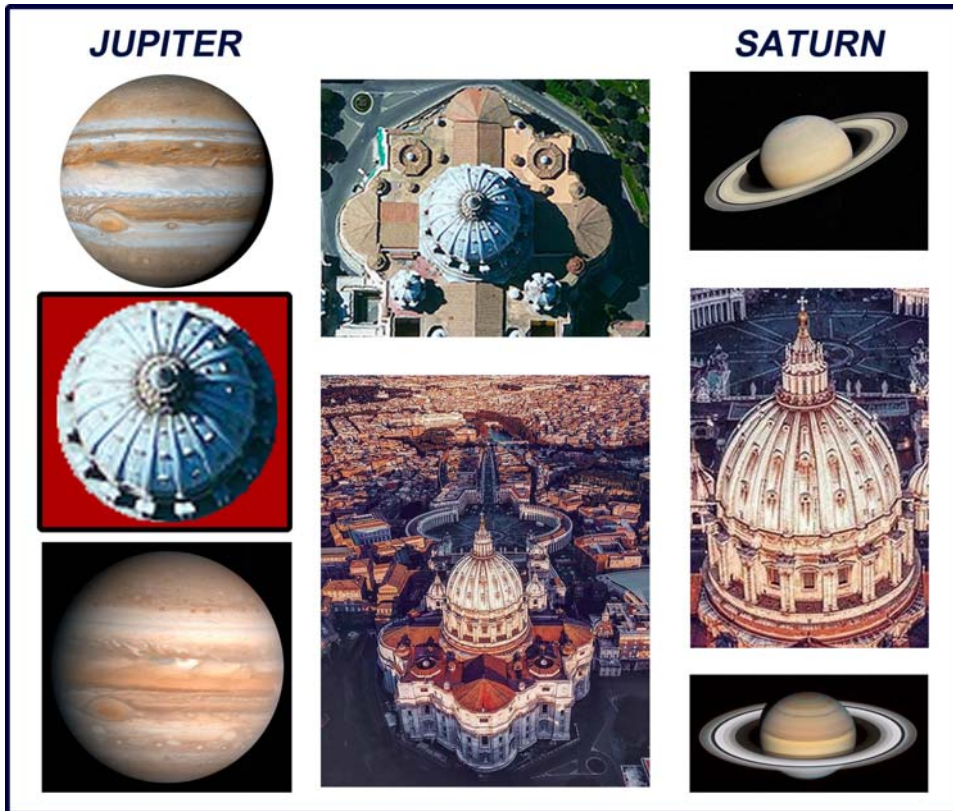

Figure 5

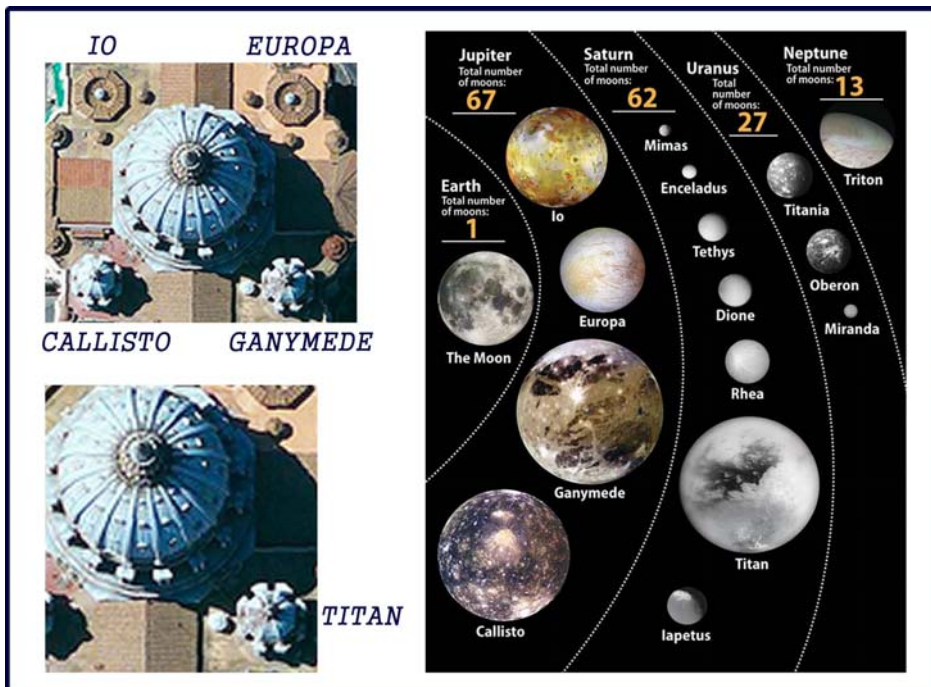

Figure 6

Figure 7 - 'MEN IN BLACK I' Metropolitan Solar System symbolism

Then, he left 9 disciples outside [9=> 6 => Saturn] and entered in with the other 3 [entered in to the region of the 3 stars] in order to pray [PREY on those star systems].

He went to pray the first time and returned to find that his disciples were sleeping - or rather, he entered into the first star system to 'PREY' upon the planets and the star, and when he returned from that star system, it was now a dormant [sleeping] star.

He did the same a second time and returned to find them sleeping again [Jupiter did the same the with the second star, leaving it too, dormant].

The third time he did this, they were met with the group that had been led to them by the traitor, leading to the aforementioned ear removal - Mars was 'ejected' by Neptune to carry the 'precious cargo' here to the Earth and more specifically, into our sub-solar system (thus, quite possibly, to Venus and/or other planets also) before the outer portions and the superstructure of that entire [relatively large] ejected planet [vessel] were obliterated, leaving just a rather large core behind, which we know of as the planet Mars . [Biblical connotations: Rev:12 - Mars as the baby from original planet as the mother; also, Mars fragment/s could be considered as infant to Mars as mother].

And now, they seek to do the same to us here in this last active sub-solar system as was done in those other two sub-solar systems, with this last living planet: namely, the Christ Star [Sol, our Sun] and the Christ planet [Earth].

[Christ, the light of the world => our Sun].

Christ, whose body we eat from and whose blood we drink => The Earth].

A Christ human being was prophesied to be sent to try and show human beings the truth and to see if they would depart from the destructive ways that the insurgents had enforced upon them, and to instead, align with the ALMIGHTY CREATOR and the divinely-aligned Celestial Hierarchy that leads up from the Earth, our Sun/sub-solar system, our metropolitan solar system, our galaxy, our galaxy group, our Cluster and Super Cluster, our universe, multiverse etc ALL THE WAY up to the Almighty Creator who sits at the very very top of ALL CELESTIAL HIERARCHIES IN ALL OF EXISTENCE. (even though not all of them are actually aligned/living in alignment with the ALMIGHTY LAW => NATURE].

We also, are rebelling against the Almighty Law; BY DESIGN.

The insurgents need to overrun the planet with destructive human beings exhibiting destructive human behaviours, so that we will destroy the planet and hence, allow them to create a new DEATH STAR - which they have been drilling to and then subsequently building for thousands of years (with slave labour of people stolen from the Earth's surface; during wars, famines etc, over the millennia].

The phrase 'Jesus came to show God that mankind might know Him' relates to the notion of a Christ being brought forth to convey the truth to the people and to see IF people [enough people] would align with that Christ individual and seek to restore the Earth to health [chiefly, to restore the rain forests of the SAHARA] which would then allow the planet to reconnect the star system to the Galaxy.

The notion of phoning home - or going homeward.

But if mankind was not up to the task, then the process could be carried out in a different fashion; one that was not, however, so 'human-friendly'.

Thus we have the notion of three kings [THREE STARS] going homewards ANOTHER WAY [by different means].

As it currently stands, it is my belief that there are NO OTHER HUMAN BEINGS (certainly not enough human beings) who have aligned with the Christ and the divinely-aligned Celestial Hierarchy.

That is to say that I, the Christ individual, can not show a single other human being who has aligned with me, supported me, collaborated with me, accompanied me or partnered me IN ANY WAY so as to demonstrate that humankind was able to align themselves with the Almighty Creator, the divinely-aligned Celestial Hierarchy and the Almighty Law (nature).

Instead, we remain fully aligned with the insurgent forces to destroy the planet; this we do just by living way that we currently live, which has been designed to overwhelm the planet and destroy it over the course of time; at the appropriate time, in the appropriate manner, as has been repeated from one planet to the next all across

our Sub solar system and all across the other sub-solar systems of our metropolitan Solar system; namely, the sub-solar systems Uranus and Neptune.

Thus, we multiple uncontrollably like a cancer, spreading the destructive human traits that will bring the planet to destruction; destroying the trees and the forests, polluting the seas, destroying the water cycle on the land and ultimately, creating deserts of sand, clay and concrete.

Moreover, we not only overpopulate the planet with our destructive selves, but we also destroy the natural habitat to overpopulate it with other destructive insurgent alien 'vessels', namely, the cows and the pastoral creatures of the planet.

These then feed on the equally destructive alien 'Grass' that is not originally of this world either, and hence, they create the methane gas that then pollutes and destroys the atmosphere.

This chemical reaction is actually a key component of the destruction of our star system, likely, disconnecting our planet fully from our galaxy and hence, with the final destruction of that field that is currently protecting us from total destruction, this would allow Jupiter to advance all the way to our Sun and consume/destroy it's photosphere, leaving just another dormant star behind.

GETHSEMANE => METHENE GAS/METHANE GES => **METHANE GAS**

And with enough star system destroyed, this would eventually enable yet another huge 'chunk' of the galaxy to be broken off our galaxy, creating a new 'minor galaxy' that the insurgents can then pilot else where in their 'hitchhiking' conquest of our galaxy [note, hitchhikers guide to the galaxy].

The Prelude INDEED to the Death of the 'Christ's' [The Christ Planet, the Christ Star/Sub-solar system and hence, ultimately, the Christ Metropolitan Solar System - which I will often refer to as 'Urania' or 'Uranus']

Fortunately, The Almighty Creator decreed that this would be the END OF THEIR CONQUEST, and that as such, by one means or another [whether through human endeavour or else, if that failed, then likely, subsequent to human extinction].

So, if we human beings have already failed [as I, the Christ individual, firmly suspect to be the case at present], then Greater Powers will ultimately rid the Earth of the Cancerous Cells [humankind and the other life forms of the insurgent forces - quite likely, all complex life forms on the planet] as part of the process to reconnect the star system back to our galaxy.

And at such time as we have officially failed to sufficiently align in sufficient numbers sufficiently prior to the DEADLINE, then we, as human beings, will have become surplus to requirement [as also, would be the need for a human Christ] and Greater Powers would assume control of the situation in its entirety (which includes presiding over the ultimate fate of humankind here on this planet and potentially, further afield within this sub-solar system, also).
